DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11 September 2003 has been entered.

Information Disclosure Statement

2. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

3. Applicant should note that the information disclosure statement (IDS) submitted on 11 September 2003 consists of previously considered and cited documents.

Claim Objections

4. Claims 30, 32, 33, and 34 are objected to because of the following informalities:

- (a) in claim 30, "an outer wall" on line 7 should probably be --an exterior surface--;
- (b) in claim 32, "an outer wall" on line 2 should probably be --an exterior surface--;
- (c) in claim 32, "a portion" on line 7 should probably be --a first portion--;

- (d) in claim 32, "a portion" on line 9 should probably be --a second portion--;
- (e) in claim 32, "said outer wall" on line 10 should probably be --said exterior surface--;
- (f) in claim 33, "an outer wall" on lines 1-2 should probably be --an exterior surface--;
- (g) in claim 33, "said outer wall" on line 8 should probably be --said exterior surface--;
- (h) in claim 34, "an outer wall" on lines 1-2 should probably be --an exterior surface--;
- and
- (i) in claim 34, "said outer wall" on line 7 should probably be --said exterior surface--.

Appropriate correction is required.

Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter: the instant application is deemed to be directed to a nonobvious improvement over the invention patented in US Patent 4,366,384. The improvement comprises in combination with other recited elements, detecting a first portion of said radiated light passing through said fluid conduit and detecting a second portion of said radiated light which is reflected by said exterior surface of said fluid conduit.

Conclusion

6. This application is in condition for allowance except for the following formal matters: claim objections noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
